Beautiful, durable and affordable. Kronotex combines the ingenuity of German engineering with the beauty of timber to deliver stunning, hard-wearing laminates that mirror the splendour of solid wood floors.

Designed and manufactured in Germany, Kronotex's cutting edge surface structures (see page 20) collide with authentic timber patterns to create strikingly realistic woodgrains. The breadth of these woodgrains and colours available across the AMAZONE, EXQUISIT PLUS, EXQUISIT, DYNAMIC and SUPERIOR ranges intertwine the traditional with the latest European trends. This results in designs that are both timeless and alive with personality. From deep, dark and elegant to light and weathered. From extra narrow planks to extra wide. There is a Kronotex design to elevate your interior style.

The enviable quality of German manufacturing means Kronotex Laminates are so robust they can be installed in both commercial and residential settings – making them perfect for busy Australian homes.

With Kronotex Laminate there is no limit to where your imagination can carry you!

AMAZONE

D3668 Oak Dezent

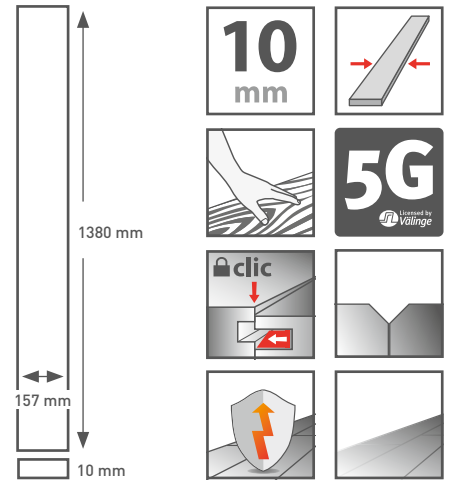

AMAZONE

EXCLUSIVE to Carpet Court

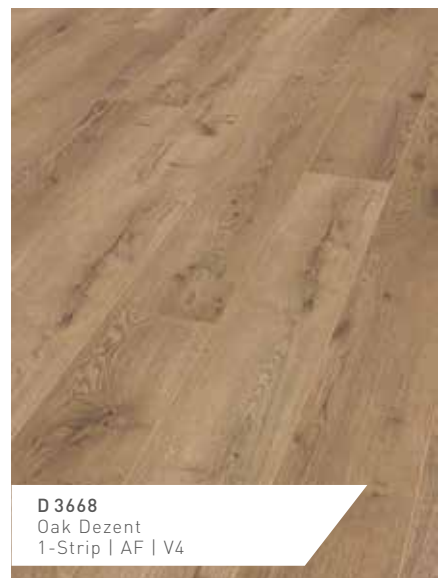

Graceful. Stylish. Effortless. AMAZONE is a premium laminate. Featuring long and narrow planks, an AMAZONE floor oozes with elegance. It harnesses the natural beauty of timber with micro bevel edges and embossing, plus a range of sophisticated surface structures (see page 20). Available in six carefully curated patterns and hues, AMAZONE can be fashioned to meet all of your interior design needs. Boasting an AC5 abrasion rating and a Use Class of 33, AMAZONE is so sturdy it will maintain its beauty even in heavy-traffic commercial spaces.*

STRUCTURES

MX / Matrix

An advanced technique which uses the contrast between matt and gloss finishes to create depth and mimic the deep grooves of wood grains.

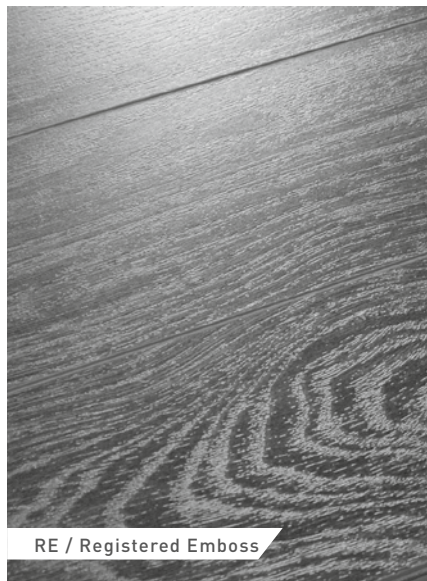

MX / Matrix

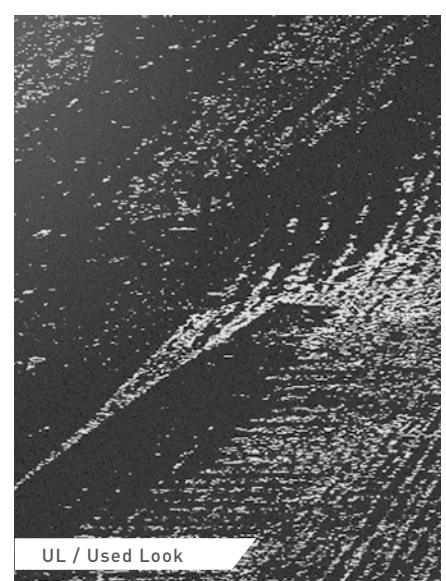

AF / Authentic Floor

RE / Registered Emboss

A textured surface layer matches perfectly with the pattern of the grain beneath it to create a beautifully realistic surface that is difficult to distinguish from hard-wood floors.

RE / Registered Emboss

UL / Used Look

CP/RE / Chrome Pore

A shine effect is added to the grain pattern to play with light and add depth to the floor's finish.

Shine Effect

CP/RE / Chrome Pore

AF / Authentic Floor

A highly detailed finish that results in a vivid and natural wood texture.

UL / Used Look

A decorative finish that mimics the weathered look of well-loved hard-wood floors to create a beautifully realistic used look.

PANEL CONSTRUCTION

Kronotex laminates consist of a minimum of four stable layers which ensure the extraordinary durability and unique quality of Kronotex floors.

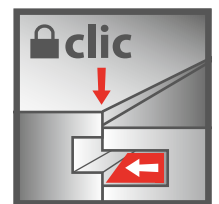

- A** The top surface of the flooring consists of a specially resistant protective overlay film. This is fused with an attractive resinated decorative film into a practically abrasion-proof, hardwearing surface.
- B** Extremely dense HDF fiberboard forms the supportive core (HDF, E1).
- C** On the undersurface of the core, a dampness impeding stabilization film ensures and preserves the high structural stability of Kronotex laminates.

THE CLIC-SYSTEM

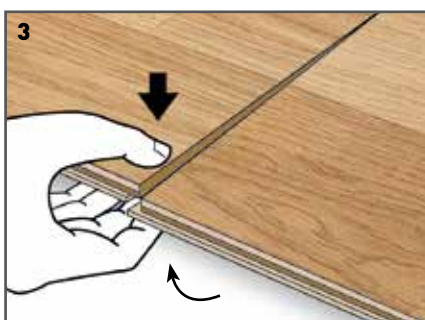

Installing a floor becomes child's play: Simply unpack, lay, snap together and done. No effort involved – your hammer and block can stay in the tool box.

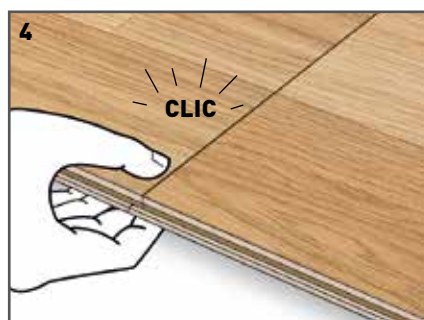

Long side

- Much easier to install.
- Up to 50% quicker to install.
- No hammer, tapping block and pulling bar required.
- Safe and stable.
- You can walk on the floor immediately after installation.

Short side
