PHOENIX COLLECTION

Celestial

HELLO THERE!

My name is Phoenix and I am pleased to join the lineup!

I am a 7mm Hybrid Flooring Collection punching well above my weight, delivering exceptional value with every metre. Boasting 8 contemporary and traditional colour options, I am sure to stun the competition and win your heart.

I am made with a durable top layer, a core layer of high-density stone composite, making me hard-wearing, resistant to scratches & dents, and I am 100% waterproof. I am also super low maintenance, giving you more time to enjoy life.
