ORGANIC COLLECTION

A modern living room with a large window overlooking a pool and ocean at sunset. The room features a light-colored wooden floor, a white TV stand with a large television, and a glass railing overlooking a pool and ocean. The sun is setting over the ocean, creating a warm glow. The room is well-lit with recessed ceiling lights.

A message from the manufacturer:

RESPONSIBLY HARVESTED & MANUFACTURED

Our company employs sound environmental care policies by using renewable resources and VOC safe components. We take great pride in being able to offer everyone a totally safe, green product. Our 3 layered engineered flooring composition encompasses the use of legally compliant, and over 70% renewable timber resources.

WORLD CLASS FINISHING

The strength of our technology and production processes allows us to distribute our timber flooring products worldwide with confidence, even in extreme climates. This ensures a look and feel to suit your design preferences and needs, which will last the lifetime of the floor.

SUPERIOR STABILITY & CONSISTENCY

HEVEA BRASILIENSIS (Rubberwood) is a plantation hardwood timber that has similar density to White Oak. It is well-known that Hevea core in 3 layered engineered floors is stronger and more reliable than other species used in the market, due to its physical and mechanical strength.

ORGANIC COLLECTION

Organic is another smaller collection of 14mm European Oak Flooring. Consisting of 4 colourways the Organic Collection has been carefully selected for a more rustic look.

Water-Based UV Lacquer enhance the timber's raw natural appearance, whilst providing superior protection from daily wear. A 25 Year Residential Surface Warranty & Lifetime Structural Warranty ensures peace of mind.

The Organic collection epitomises true rustic beauty, encapsulating all colour and grain variations, knots, filled cracks and natural markings. Timber floors should be conversation pieces. With the Organic Collection, the conversations will never end.
